Belle Glade Gets \$35,000 Rec Fund By Roberts Effort

The City of Belle Glade will receive some cash aid in its effort to convert a part of Torry Island into a recreational area. The majority of the work in the past has been done by Police Chief Charles Goodlett and prison labor.

The recently created Outdoor Recreational Planning Committee in Tallahassee Monday assured Representative Emmett Roberts and a Belle Glade group that about \$35,000 would be available when the committee meets in August. The money comes from the fund that is collected from the sale of sporting goods in Florida.

Attending the Tallahassee meeting with Roberts and Stretch was J. D. (Pete) McClellan, president of the Chamber of Commerce, along with Luther W. Jones and Fritz Stein, Jr., members of the Broward-Palm Beach Recreation Committee.

Roberts said the standards set by the committee for releasing the funds had been met "in each instance" by the local group.

The city has cleared off a section of Torry Island, provided camp sites, electricity, and toilet facilities, and plans to increase facilities for boating enthusiasts and picnickers.

Alumni Will Hold Reception August 9

Mrs. Dale Perry announced that the Western Palm Beach County Alumni Club of the University of Florida will hold a reception honoring area high school graduates and junior college transfers who will attend the University of Florida in September, and their parents, on Monday, August 9th at the Belle Glade Civic Center at 7:00 p. m.

A 30 minute film special about the University entitled "Road To The Moon" will be telecast during the program from 7:30 to 8:00 p. m. over WPTV, Channel 5 as a public service by the Student's TV Reception, is to identify incoming and prospective students with the Alumni Association, establish a relationship among these students, their parents, and the Association and to indoctrinate and inform larger numbers of Florida residents as to their present day University of Florida. Dr. Earl G. Rogers, Professor of Agronomy, will attend as Faculty Representative and Mike Berryhill, will attend as Student Representative. Both will participate in a panel discussion at the end of the telecast.

All Alumni and their wives or husbands are urged to attend and join in hosting these local students and parents. Those planning to attend please call 966-6464 no later than Friday, August 6th.

C. G. Willis Called By Brother's Death

Mr. and Mrs. Charles G. Willis and son, Bill, and daughter, Virginia, left Saturday night for New York where they were called on account of the death of his brother William who died Friday night. The funeral was held on Tuesday of this week and Mr. Willis attended while the family was with relatives in Hicksville, N. Y.

ATTEND BOYS' CAMP

The boys attending camp this week at Lake Yale, Fla., were Herman Clark, Larry Stewart, Jay Stewart, Ricky Maynor, Jerry Pugh, Chris Bailey, Ronnie Brown and Billy Brown. They were representing the Baptist church in Canal Point.

Funeral Services Held Tuesday For Evelyn D. Durrance

Funeral service was held Tuesday morning in the First Baptist church in Pahokee for Mrs. Evelyn D. Durrance, wife of Bob Durrance, who died suddenly Saturday morning at her home in Canal Point. Rev. A. L. Stone pastor of the Church of God and Rev. Guthrie Colvard pastor of the First Baptist church conducted the services.

Survivors include her husband Robert, and three sisters, Mrs. Mary Peacock of West Palm Beach, Mrs. Nettie Irene Tompkins and Mrs. Alice Tompkins, both of Sumterville, Fla.

Pall bearers were Davis Kickliter, Clint Jones, J. T. Chance, Elmer Upthegrove, Lonnie Warren and Curtis Miners. Wetherington Funeral Home was in charge of arrangements and burial was at Port Mayaca.

Winn-Dixie Stores Heavy Purchaser

An increase of more than \$300,000 in the value of Florida fresh fruits and vegetables purchased by Winn-Dixie Stores, Inc., on the Pahokee market during the 1964-65 growing season was reported today.

Purchases during the season just ended totaled \$2,598,210 compared with \$2,233,047 during the 1963-64 growing season. These represented a total of 1,866 carloads compared with 1,591 cars last year. Freight and ice costs amounted to \$340,272.

These fruits and vegetables found their way into shopping baskets in many of Winn-Dixie's 668 supermarkets throughout the South.

"These purchases emphasize our continuing policy of doing business in our own operating areas wherever possible," said Joe A. Adams, in charge of perishable merchandising.

3 Manatees Become Weed Killers For Flood Con. District

MIAMI—Three manatees, sometimes called sea cows, have taken up employment with the state as weed-killers.

The manatees were netted by the Miami Seaquarium under a commission from the Central and South Florida Flood Control District and will be used in an effort to rid drainage canals of water weeds and hyacinths.

Manatees are 1,000-pound, vegetarian mammals that live in South Florida waters. They are gentle, bovine and sluggish about everything but their voracious eating of water weeds.

In May, 1964, the Seaquarium netted five manatees for the Central and South Florida Flood Control District, and they have been working in drainage canals west of Boca Raton.

They have proved highly efficient at exterminating water weeds and water hyacinths. Not only do they eat the leaves, they eat the roots of the plants and even polish the stones.

The manatee experiment is being conducted by Dr. Peter Sgueros of the Florida Atlantic University of Boca Raton under a contract with the Flood Control District. It is being carried on in a canal two and one-half miles long.

City Of South Bay To Change Date Of Annual Election

Members of the city council of South Bay are contemplating a change in the date of their annual election. The election is now held in October and they plan to change it to the first Tuesday in September.

A new ordinance is in the process of being passed by the council setting the new election month. The upcoming election this fall will be held under the new rules, it was pointed out by city officials.

Kenneth Warren and Franklin W. Kelley are the incumbents, who will in all probability be in the running for the two-year seats on the commission.

Kelley recently was elected to fill out the unexpired term of A. R. Grisby, who resigned last spring due to ill health.

Routine Business For Farm Board

Chairman Roswell Harrington presided over a meeting Wednesday of the Agricultural Stabilization and Conservation Service Board when it met Wednesday at the Glades Office Building. Associate County Agent John H. Causey said the monthly session was to handle routine business.

Colvards To Return To Pahokee August 10

Rev. and Mrs. Guthrie Colvard of the First Baptist church in Pahokee left Tuesday for Ridgecrest, N. C., to attend a church planning conference. From there they will go on August 4 to the Baptist Assembly at Southport, N. C., to be with their daughter, Ruth. The family plans to be back in Pahokee on August 10.

HOSPITAL PATIENTS

Patients at the Everglades Memorial Hospital this week were: Ella Sears, Ida Butler, Mattie Sullivan, Donald Tyne, Nancy Rashley, Beverly Rashley, Louise Devane, Mammie Pugh, James Narrow, Leo Farley, Edward Olson, and Rashie Edwards.

Waddell Retires After 18 Years On Housing Authority

Joe Waddell, pioneer Pahokee resident, farmer and former operator of a grocery store, retired July 19 as a member of the Pahokee Housing Authority after serving in that capacity for 18 years. He was signally honored in Jacksonville last summer by being presented a citation by the Housing Commissioner citing his more than 16 years of continuous service.

Claude Shirley, an original member of the Authority was named by Mayor Duncan Padgett and confirmed by the City Council to replace Mr. Waddell. During the years of his service Mr. Waddell served as chairman on three different occasions. He was one of the original five members of the Authority.

Other members of the Authority are M. P. Holman, Bob Apelgren, E. L. Pope and J. L. Tyson, Jr. James H. Vann is the executive director and has held that position for the 18 years that the Authority has been in existence.

Youths Unhurt In Auto Accident

A Tuesday automobile mishap north of Canal Point proved to be lucky for those who were in the wreck. Jessie C. Simonds, Jr., of Pahokee was driving south on US441 when a car behind him driven by Aubrey A. Hitchcock, 16, of Canal Point rammed him from the rear. The Simonds youth had slowed down for a tractor that was proceeding south on the highway. The crash occurred when the group of youngsters were returning from a swimming party. Other passengers in the car were unhurt. Damage to the vehicles was set at \$300.

Young Hitchcock was charged with following too closely behind a car.

Today you can guess what your tax bill will be this fall. There is no definite way of telling right now how much it actually will cost each taxpayer in the county. No millage can be set by any taxing agency until Tax Assessor Edgar Maxwell completes his task of revaluation.

The school board adopted its budget Wednesday night and figures show that an additional 16.4 percent must be raised by local taxes. The mammoth budget of the school board came to a total of nearly \$75,000,000. Twenty million of this must come from Palm Beach county citizens.

The budget is nearly double last year's budget of \$37.9 million but most of the increase is for construction of new buildings approved by the voters last fall in a bond issue election.

The breakdown of the budget is \$34.6 million for operating costs, \$31.9 million for capital improvements, \$5.2 million for debt service fund and another \$5.2 million for Palm Beach Junior College.

What millage rate must be levied to get \$20 million locally from taxpayers cannot be set until County Tax Assessor Edgar Maxwell announces a property valuation figure for Palm Beach County.

Maxwell is conducting a general revaluation of county property to comply with a ruling by the Florida Supreme Court that all property must be valued and assessed at 100 per cent of "fair market value."

Property values in the county during past years have averaged 60 per cent of fair market value, so total valuation will increase.

County schools face a 5.5 per cent pupil increase with a total of 65,000 expected enrollment this year.

McClellands Back In Heart Hospital

Mac and Agnes McClelland are back in Doctors Hospital in Coral Gables this week for routine treatment of their heart conditions. Both of them have had heart surgery in Chicago and have had to watch their daily routine since that time. They were named "King and Queen of Hearts" at the annual heart ball last year.

The McClellands live in Canal Point and Mrs. Mac works in the office of Associate County Agent John Causey in the Glades Office Building. Mac is the county veterans officer and spends his time between Pahokee and Belle Glade.

Mrs. Mac hasn't felt good for several years and a Belle Glade physician made the decision to send her to the Coral Gables institution. Mr. Mac went along for a routine heart check up. Their friends in the Glades will be thinking about them while they are under treatment.

Mrs. Bit Farrow and Mrs. Doris Sasser and son, James Paul, have gone on a three weeks vacation in Los Angeles, Calif. They will visit Disney Land and other sights of interest.

State Economy Is Ahead Last Year

Florida's economy at mid-year stood well ahead of 1964 as measured by the principal devices, the Florida State Chamber of Commerce pointed out in its Weekly Business Review released yesterday.

"Jobs held and money earned showed the most significant increases. Employment of all types was up 5 per cent over a year ago and personal income was running at an annual rate of 8 per cent over last year."

"Bank debits, a good gauge of business activity, showed an 8 per cent increase and bank deposits were up about the same degree."

"Sales tax collections were 12 per cent over 1964 and gasoline sales amounted to 5 per cent more."

"Real as these gains are, there were some disappointing features of the state's economy at mid-1965. New business incorporations were formed at a rate of about a thousand a month, registering only one per cent over 1964. Business failures, the other soft spot, were up 9 per cent and their liabilities were almost double 1964 as reported by Dun & Bradstreet."

A Good Bed Is A Necessary Item

TALLAHASSEE — Since you spend about a third of your time in bed, a good bed is one of your most important and necessary home furnishings, say home economists with the Florida Agricultural Extension Service.

If you want a comfortable bed, invest in a high quality mattress. A first-class mattress will give years of service and lasting comfort.

Modern mattresses come in three types — late, fiber, inner-spring.

The inner-spring variety gives the greatest buoyancy and most adjustment to your body. Metal tied springs should have at least 160 coils. If the coils are encased in separate cloth units called "pockets", the mattress should have 800 or more coils.

Examine the insulation and padding. Soft padding and firm tufts add to comfort and durability. A cotton mattress is made of cotton, hair, or kapok. It gives firm support without much resilience. Look for deep, uniform tufting and tailored, rolled edges.

Whichever mattress you select, look for a firm, closely woven colorfast cover to insure wear.

BIRTHDAY PARTY

The home of Mr. and Mrs. Melvin Spooner was the scene of a birthday party for their daughter, Mary Nell. She celebrated her eighth birthday with sixteen of her girl friends to help. They were served hot dogs, cake and ice cream.

Mr. and Mrs. M. M. Andrews and daughter, Judy, and friend, Linda Butler, have returned home after a week's stay at Ft. Myers Beach.

Florida's Bears Destroy Many Bees

GAINESVILLE—Surprise! Florida has bears.

They destroy thousands of dollars worth of bee colonies and honey in the state each year.

In addition to these direct losses, F. A. Robinson, assistant apiculturist with Florida's Agricultural Experiment Stations, says beekeepers are kept from using thousands of acres of good bee pasture because bears make it too hazardous to put bees in these areas.

Generally they give us the most trouble in the "state's national parks" where some of the best bee pasturage is found, Robinson says.

Since many of these areas are game preserves and destruction of wildlife is prohibited or strictly regulated, beekeepers have long sought an inexpensive but reliable method for protecting their colonies.

An electric fence with a wire mat around the outside perimeter of the enclosure is the best way of stopping bears from destroying bee colonies. To find the best fences to do the job, we conducted tests over a three-year period, said Robinson.

Several factors were taken into consideration, according to the researcher. A suitable electric fence has to be easy and cheap to build. It must also be dependable enough to operate for several weeks. Since bears usually give the most trouble in wilderness areas where electric power is not available, the fence must be designed to operate satisfactorily "when charged" with a battery-powered fence controller.

"The tests show that the best fence to build is one made from standard woven wire, 48 inches high. The fence is fastened to the posts so that the bottom edge is at ground level," he said.

"Place a strand of barbed wire eight inches above the ground and another eight inches above the top of the woven wire," Robinson adds.

In areas of light sandy soils, ole Mr. Bear has little difficulty in

Classified Ads

POSITIVELY all want ads or classifieds, as you wish to call them, are payable in advance from his day forward. Don't phone 'em. Write it and drop a dollar bill in the envelope if you want it run once. \$2 if you want it run twice and so on.

WHAT'S IN THE ATTIC that you don't need? A \$1.00 classified ad in this column will probably find you a sale. Just write your ad, enclose a dollar and we'll do the rest. The Everglades News, Canal Point, Fla.

FOR SALE: New and Used Willys Jeeps. Walter Ashley's Garage in Belle Glade, Phone 6-3058. Oct. 17-54-ch

SEPTIC TANK Service available by calling me. We do excellent work. Bob Durrance, Phone 924-5268. Sept. 17 p.d.

digging under most fences. However, you can solve this problem quickly by installing a wire mat on the ground outside the fence. The mat should be "about 18 inches wide" and fastened securely to the posts.

Lastly, you're not going to keep the bear out with just the fence. However, when you add electricity to it and the mat, that's another story.

A transistorized controller built to operate with a 6-volt battery, yet equalling or exceeding the output of most controllers designed for a 110-volt power supply does a good job.

The estimated cost to build an electric fence large enough to enclose 50-60 colonies runs a little over \$200, according to the specialist.

"Unless enough "shocking power" is available, a determined bear after honey will win out by either going over, under or through the fences you've built.

Mrs. Howard Holman and family have returned home after a visit with her parents, Mr. and Mrs. Gaston Fisher, in Belmont, N. C.

Miss Fran Arnold Honored At Shower

A calling shower in compliment to Miss Fran Arnold, bride-elect of Ralph D. Jones, was held at the home of Mrs. Mae Thelen in Pahokee from 8:00 to 10:00 Thursday night. Miss Arnold's marriage to Mr. Jones will be an event at the Pahokee Methodist Church Friday, August 6.

Hostesses assisting Mrs. Thelen were Mrs. Edythe Smith, Florence Keen, Elsie Epstein, Jackie Billington, Emma Lei Clark and Vivian McKinstry.

The color scheme used by the hostesses was yellow and white. The table was laid with lace over yellow with a yellow net undershirt. The floral arrangement was of yellow and white spring flowers. The punch was served from a silver punch bowl and the table was lighted by a pair of yellow three-tire candelabra.

The hostesses' gift to the bride-elect was a set of stainless steel silverware.

Nancy Spell of Georgia is visiting her aunt and uncle, Mr. and Mrs. W. J. Adams.

Mr. and Mrs. Frank Rosenberg had as guests for dinner Sunday his mother and grandmother, Mrs. Betty Rosenberg and Mrs. Grace Rosenberg, also Mr. and Mrs. Hal Rosenberg, all of Lake Worth.

FLORIDA POWER & LIGHT COMPANY HELPS "BUILD FLORIDA"

New $3\frac{3}{4}\%$ interest on U.S. Savings Bonds

The Treasury explains why the new ones you buy and the ones you own now are better than ever

- Q:** How does the new $3\frac{3}{4}\%$ interest rate benefit me?
- A:** With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.
- With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to $2\frac{1}{4}\%$ for the first year and a half; then a guaranteed 4% each year to maturity.
- Q:** When did the new rate become effective?
- A:** June 1, 1959.
- Q:** Does the new rate change the Bonds I bought before June 1, 1959?
- A:** All older E and H Bonds pay more now—an extra $\frac{1}{4}\%$ from now on, when held to maturity. The increase takes effect in the first full interest period after June 1.
- Q:** Will the Bonds I own automatically earn their new rate?
- A:** Yes. You don't need to do a thing—just hold on to your Bonds.
- Q:** When my E Bonds mature, will they keep on earning interest?
- A:** Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earning interest after maturity.
- Q:** With the new interest rate, should I cash in my old Bonds and buy new ones?
- A:** No. The automatic $\frac{1}{4}\%$ increase makes it unnecessary—and in almost every case it is to your advantage to retain your present Bonds.
- Q:** How are series H Bonds different from series E Bonds?
- A:** The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury

check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

- Q:** In what denominations can I buy series E and series H Bonds?
- A:** E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$10,000 (cost \$7,500.00).
- H Bonds: \$500, \$1,000, \$5,000, and \$10,000. They are priced at face value.
- Q:** How safe are U.S. Savings Bonds?
- A:** Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.
- Q:** What if my Bonds should be lost, stolen or destroyed?
- A:** You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.
- Q:** Where can I buy Bonds?
- A:** Buy E Bonds at any bank—it takes only a few minutes. Buy them automatically through the Payroll Savings Plan where you work. This Plan means you can have any amount you name automatically deducted every payday. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for H Bonds.
- Q:** How do I help strengthen America's peace power when I buy U.S. Savings Bonds?
- A:** Peace costs money—money for military strength and for science. And money saved by individuals helps keep our economy sound.

Mildew Is Among Problems In Home

During periods of high humidity, mildew can be a real problem. This is especially true if you have a new house because some new woods contain large amount of moisture, says Miss Mary Todd, Extension Home Economist for Palm Beach County.

Molds are always in the air, but the ones that cause mildew need moisture, warmth, and poorly aired, poorly lighted surroundings to grow.

It's easier to prevent mildew than to repair the damage. To prevent mildew, keep your home well aired and the atmosphere as dry as possible. Store only clean articles and keep them dry, well ventilated and exposed to light.

Air-conditioning is one of the best ways to prevent mildew in the home as it reduces humidity as much as 30 per cent.

Miss Todd points out that greasy films on walls and other surfaces contain nutrients on which mildew organisms thrive. Cleanliness helps to prevent growth of mildew spores.

During muggy weather, shut doors and windows to keep much of the moist air outside. Open windows when outside air is dry.

Take advantage of cool night air to freshen shower stalls, bathrooms, and other musty areas. An electric fan helps to force warm, moist air out and to circulate fresh air.

A dehumidifier used in the basement will help to prevent mildew and a musty smell, Miss Todd adds.

A low-wattage electric light burning continuously in a poorly ventilated closet may provide enough heat to prevent mildew. Commercial anti-mildew preparations are useful in destroying mildew-forming fungus.

For a free bulletin on mildew prevention and removal call the Extension Home Economics Agents office, OV 3-1252.

State's Phone Users Are On The Increase

TALLAHASSEE—Winter visitors made greater demands on the state's telephone companies than ever before during the season just ended, says the Florida Public Service Commission.

Smaller companies particularly, serving suburban and rural areas, are continuing their steady growth, indicating less reaction to the winter tourist season's closing.

Florida Telephone Corp. of Ocala, for example, added 304 to its total in May and Southeastern Telephone Co. in Tallahassee added 378. Southern Bell was also serving 4,500 more subscribers at the end of May than at the beginning, reflecting a rate growth of more than 1,000 phones a month greater than prevailed in May of 1964.

In Florida,
after a day's fishing
beer's the one...
for good taste,
good fun

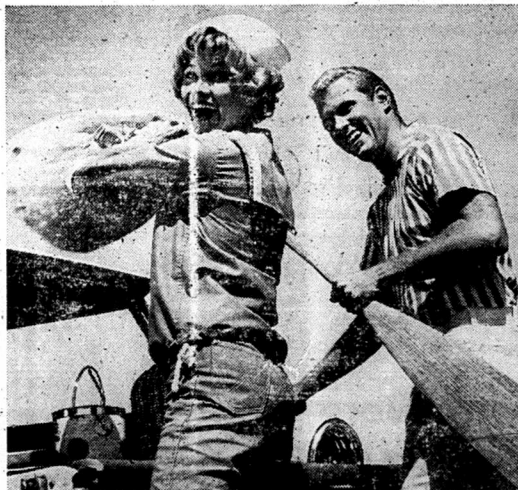

Wherever you fish for sport—on the ocean, by the booming surf, or on some quiet country pond, it's great at the end of the day to head for a rewarding glass of beer. While you're talking over the ones that got away, or pan-frying the ones that didn't, you enjoy the hearty taste and cool refreshment only a glass of beer can give you so well. Yes, whatever your sport—bowling or strolling, golfing or gardening—a frosty glass of beer makes a naturally great accompaniment.

A message from the Treasury of a free people

How to speak out for freedom today

Free men have never gone in much for silence. Even before the first thirteen States became United States, men were speaking for freedom loud and clear.

Today Americans speak out for freedom many ways—in Congress, in local government, in neighborhood activities. Some speak out for freedom in other languages, in other lands. And millions of Americans speak out for freedom every time they buy U.S. Savings Bonds.

Every Savings Bond you buy is an investment in freedom. While you're saving money for your

own family's future, you're helping Uncle Sam tend to the business of keeping men free today.

Perhaps you don't speak out for freedom in the same tone of voice when you buy a Bond as Patrick Henry did in his famous speech. But you speak every bit as surely. And every bit as proudly.

Why not speak out for freedom now? Buy Bonds at the bank or on the Payroll Savings Plan where you work.

Keep freedom in your future with

Migrant Workers Program Started

ST. PETERSBURG—A \$626,410 program to aid migrant farm workers and their families in 14 Florida counties moved into high gear recently as the program director arrived in St. Petersburg from Washington to assume his new post.

Dr. Thomas P. Hardeman, vice president and deputy director of Community Service Foundation of Largo, which is supervising the federally financed Florida program, welcomed the arrival of program director Allen E. Guskin. Guskin, a former Peace Corps volunteer in Thailand and most recently director of the Division of Volunteer Evaluation and Placement for VISTA, said he'll start work by making a statewide tour of the migrant program's regional offices.

Regional offices have been established in Bradenton, Ft. Myers, Belle Glade, Miami and Ft. Pierce with St. Petersburg set as the state headquarters.

Scholarship Is Won By Palmetto Youth

GAINESVILLE—Eugene Peter Hauer, 23, of Palmetto, has been awarded the 1965 \$500 Ralston Purina Company scholarship at the University of Florida.

Hauer is a senior animal science student at the University and son of Mrs. Julia P. Hauer of Palmetto.

Since his father's death, Hauer has been breeding horses on the family's small farm near Palmetto to finance his college education.

The scholarship announcement was made by R. C. Eaton, director of public relations for the Ralston Purina Company after a recommendation by Dean of Agriculture, Marvin A. Brooker.

Hauer is a member of the UF livestock judging team and is active in Block & Bridle club for animal science students.

He hopes to work as a county agricultural agent after attending graduate school at the University.

Insurance Concerns Increase In State

TALLAHASSEE — Insurance company regional home offices in Florida are becoming big business under a new program designed to bring more of them to the Sunshine State in the months ahead.

Thirteen companies and groups of companies with regional offices in the state reported they had more than \$471 millions in insurance premiums in force, and had paid more than \$18 millions in salaries last year, State Insurance Commissioner and Treasurer Broward Williams reports.

The insurance commissioner launched an intensive drive to bring additional regional home offices to Florida when he was appointed last January, and the project has met ever-increasing success.

The regional home office program, according to Williams, has already begun to net major dividends for Florida, both in capital outlay projects to provide buildings for new operations and for employee salaries. These regional home offices are spread throughout the state with Jacksonville leading the field with a total of eight companies and groups of companies.

Tourists Spending On Increase In '64

TALLAHASSEE — Florida tourists spent an estimated \$2,586,387,000 during 1964, establishing an increase of \$63,991,000 over the previous year, according to Development Commission Chairman Charles W. Campbell.

The figures were included in the Commission's annual report on visitors to Florida, their spending habits, their modes of transportation and the factors that caused them to choose the Sunshine State as a vacation area.

Average daily expenditure per person for the estimated 14,484,692 tourists in 1964 was \$15.76. Figures for 1963 showed \$14.80 was spent per person for 14,208,279

tourists.

Of the several hundred thousand visitors who filled in a Development Commission questionnaire, 71 per cent said they enjoyed beaches and swimming more than any of Florida's other attractions.

Many made multiple choices, with 56 per cent placing the state's atmosphere of fun and relaxation high on their lists. Natural scenery drew praise from 39 per cent, commercial attractions from 22 per cent and fishing and hunting from 19 per cent.

Mr. and Mrs. John Arnsdorff and son, John, from Boca Raton visited her parents, Mr. and Mrs. Lloyd Mullis, of Pahokee.

TO FORT MYERS BEACH

Dr. R. R. Long will be out of his office, on vacation, from August 1 through August 15. Mrs. R. D. Welker and children arrived from St. Paul, Minnesota, on Monday to visit with her parents, Dr. and Mrs. R. R. Long and Rammie. Mrs. Welker plans to visit for three weeks and will go with her parents to Fort Myers Beach.

VISIT IN VIRGINIA

Mrs. Bill Shackford and daughter, Mrs. Judy Dermody, left Wednesday for Machiponga, Va., and New York City. While in Virginia they will visit her son, Richard Shackford, and her sister, Mrs. Roberta Smith.

Championship 18 Hole GOLF Courses—and Fabulous Ocean and Lake FISHING Daily

SWIMMING, SKIN DIVING, WATER SKIING and BOATING

Palm Beach Shores motel, hotel and apartment accommodations are now offered at special low summer rates. Banks Still Major Source Of Credit

Florida banks remain a major source of credit and other financial services according to Rupert Mock, President, Bank of Pahokee, who represents the Florida Bankers Association as Palm Beach County Advisor Banker.

Based on the 24th annual farm lending summary of the Agricultural Committee of the American Bankers Association, Mr. Mock reported that at the beginning of the year, Florida banks were helping farmers with \$122 million in loans, 22 per cent more than a year pre-

vious. This total included \$70 million in loans, and 52 million in farm mortgages. At the same time \$150 million in farm loans was held by life insurance companies; \$53 million by the Federal Land Banks; \$94 million by Production Credit Associations; and \$7 million in nonreal estate loans plus \$10 million in real estate loans by the Farmers Home Administration. About 41 per cent of the production credit extended by lending institutions to Florida farmers came from banks.

Mr. Mock said that "bankers in Florida are conscious of the large capital investments required in agriculture today and are making a concerted effort through improved lending programs to meet

these changing credit demands of the state's farmers."

The increased use of credit by farmers, according to Mr. Mock has been accompanied by a substantial gain in the total assets of farm families. Therefore, in the aggregate, the equity position of farmers, contrary to public opinion, is being maintained at a satisfactory level. Nationally, farm families have \$193 billion of their own funds invested in agriculture. This represents 84 per cent of the total capital requirements of farmers.

Mr. Mock stressed the importance of farmers and bankers working closely together to improve farm financial arrangements.

It's Just Habit For City Products

After a one-week delay because of the Florida Little Major League playoffs in Pahokee, the Glades Fast-Pitch Softball League will resume play. City Products has a four game lead. The defending champions have won 14 of their first 15 games, the last 11 in a row.

The league leaders have the leading pitcher in Phil Bonnell (13-1) with 143 strikeouts. They have seven hitters batting over .320, with five men with 2 home runs or more. Their defense has

committed only five errors in 15 games. This combination makes it understandable why the Icemen have a four game lead.

Larry Marsh of I. A. M. leads the league with 9 home runs, although he hasn't hit one in his last eight games. He is also tops with 27 runs batted in. Tony Latour of Glades Chevrolet has the best batting average, .488.
